

SUNAO SUGIYAMA

CV, Compiled on April 27, 2026

CONTACT INFORMATION

Address	Kavli Institute for the Physics and Mathematics of the Universe, The University of Tokyo, Chiba 277-8583, Japan
Room	Kashiwa Research Complex 2, Room 202
Email	sunaosugiyama@gmail.com / sunao.sugiyama@ipmu.jp
Website	https://git-sunao.github.io
GitHub	https://github.com/git-sunao
Researchmap	https://researchmap.jp/sunaosugiyama

RESEARCH INTERESTS

Theoretical and Observational cosmology: *large-scale structure of the Universe, gravitational weak/micro lensing, primordial black hole*

COLLABORATIONS

Subaru HSC weak lensing working group, member (2021-present, **co-chair** since 2024Nov)
Dark Enrgy Survey (DES), member (2024-present), LSST member(2024-present), Roman HLIS (2024-present)

POSITIONS

Current	Project researcher , Kavli IPMU, Chiba, Japan	Feb. 2026 – present
Past	Postdoctoral researcher , University of Pennsylvania, Philadelphia, the United States Mentor: Prof. Bhuvnesh Jain	Sep. 2023 – Jan. 2026
	JSPS Overseas Research Fellow , University of Pennsylvania, Philadelphia, the United States	Sep. 2023 – Aug. 2025
	Project researcher , Kavli IPMU, Chiba, Japan Mentor: Prof. Masahiro Takada, funded partially by beyond AI	Apr. 2023 – Aug. 2023
	JSPS Research Fellowships for Young Scientists , Kavli IPMU, Chiba, Japan	Apr. 2021 – Mar. 2023
Educations	University of Tokyo, Tokyo, Japan , Ph.D. course in Physics Dissertation: “ <i>Joint cosmology analyses using gravitational weak lensing data from Subaru Hyper Suprime-Cam</i> ” Supervisor: Prof. Masahiro Takada	Apr. 2020 – Mar. 2023
	University of Tokyo, Tokyo, Japan , M.S. in Physics Dissertation: “ <i>Validation of cosmological analysis based on perturbation theory for wide-field galaxy survey</i> ” Supervisor: Prof. Masahiro Takada	Apr. 2018 – Mar. 2020
	University of Tokyo, Tokyo, Japan , B.A. in Physics	Apr. 2014 – Mar. 2018

GRANT & AWARDS

Grant-in-Aid for JSPS Research Fellows (DC2), Japan Society for the Promotion of Science, Apr. 2021 – Mar. 2023

The School of Science Encouragement Award (Doctoral program), University of Tokyo, the School of Science, Mar. 2023

WINGS IGPEES, course completion, Sep. 2018 – Mar. 2023

TEACHING

Collaborative coding: git and github, **CD3 symposium** 2023, Kavli IPMU

Coadvised students: Rafael C. H. Gomes (a PhD student at UPenn since 2023), Kyle Miller (a visiting student at UPenn, since 2024), Noriaki Nakasawa (a master student at the University of Nagoya, 2022)

PROFESSIONAL ACTIVITIES

Society	The Astronomical Society of Japan (ASJ), 2018 – present The Physical Society of Japan (JPS), 2022 – present
Seminar/Workshop/Conference	IPMU weekly lunch seminar (co-organizer), 2019 – 2021 HSC weaklensing mini workshop (organizer), Aug. 2022 Sesto 2025 - Tracing Cosmic Evolution with Galaxy Clusters V (SOC), 2025
Referee	International Journal of Modern Physics D The Astrophysical Journal Astronomy & Astrophysics Journal of Cosmology and Astroparticle Physics
Computing	Developer of fft-extended-source , fastnc , dark emulator as a part of Dark Quest Project I can work with C, C++, Python, HSC pipeline (for image analysis)
Accepted Observation	PI of Definitive search for PBH dark matter in the multiverse cosmology with HSC co-I of Survey of M31 eclipsing binaries: Toward a 1% distance measurement

PUBLIC ENGAGEMENT AND OUTREACH

Apperence on *Cosmic Front, Primordial Black Hole: the master key of the Universe (title in Japanese)* produced by NHK, 2021

Interviewed by Quanta Magazine on *Clashing Cosmic Numbers Challenge Our Best Theory of the Universe*, 2024

Interviewed by Asahi Shimbun on *Breakdown in the standard model of the Universe? An analysis using precise dark matter “map” (title in Japanese)*, 2024

The up-to-date list of publication available at [ADS](#).

* = Author list alphabetized

First-author papers or co-authored papers with significant contributions

1. **Sugiyama, Sunao**, M. Takada, N. Yasuda, and N. Tominaga. Microlensing constraints on Primordial Black Hole abundance with Subaru Hyper Suprime-Cam observations of Andromeda. *arXiv e-prints*, arXiv:2602.05840, [February 2026:arXiv:2602.05840](#)
2. R. C. H. Gomes, K. Miller, **Sugiyama, Sunao**, et al. Tidal alignment and tidal torquing modeling for the cosmic shear three-point correlation function and mass aperture skewness. *arXiv e-prints*, arXiv:2601.09133, [January 2026:arXiv:2601.09133](#)
3. **Sugiyama, Sunao**, R. C. H. Gomes, and B. Jain. Cosmology from a joint analysis of second- and third-order shear statistics with Subaru Hyper Suprime-Cam Year 3 data. *Phys. Rev. D*, 112(12):123545, [December 2025:123545](#)
4. R. C. H. Gomes, **Sugiyama, S.**, B. Jain, et al. Dark Energy Survey Year 3 Results: Cosmological constraints from second- and third-order shear statistics. *Phys. Rev. D*, 112(12):123515, [December 2025:123515](#)
5. R. C. H. Gomes, **Sugiyama, S.**, B. Jain, et al. Cosmology with second- and third-order shear statistics for the Dark Energy Survey: Methods and simulated analysis. *Phys. Rev. D*, 112(12):123514, [December 2025:123514](#)
6. **Sugiyama, Sunao** and M. Park. Data compression with noise suppression for inference under noisy covariance. *Phys. Rev. D*, 112(12):123505, [December 2025:123505](#)
7. **Sugiyama, Sunao**, R. C. H. Gomes, and M. Jarvis. Fast modeling of the shear three-point correlation function. *arXiv e-prints*, arXiv:2407.01798, [July 2024:arXiv:2407.01798](#)
8. X. Li, T. Zhang, **Sugiyama, Sunao**, et al. Hyper Suprime-Cam Year 3 results: Cosmology from cosmic shear two-point correlation functions. *Phys. Rev. D*, 108(12):123518, [December 2023:123518](#)
9. H. Miyatake, **Sugiyama, Sunao**, M. Takada, et al. Hyper Suprime-Cam Year 3 results: Cosmology from galaxy clustering and weak lensing with HSC and SDSS using the emulator based halo model. *Phys. Rev. D*, 108(12):123517, [December 2023:123517](#)
10. **Sugiyama, Sunao**, H. Miyatake, S. More, et al. Hyper Suprime-Cam Year 3 results: Cosmology from galaxy clustering and weak lensing with HSC and SDSS using the minimal bias model. *Phys. Rev. D*, 108(12):123521, [December 2023:123521](#)
11. R. Dalal, X. Li, A. Nicola, et al. Hyper Suprime-Cam Year 3 results: Cosmology from cosmic shear power spectra. *Phys. Rev. D*, 108(12):123519, [December 2023:123519](#)

Other Articles

1. S. Sugiyama, M. Takada, and H. Miyatake. Weak lensing cosmology with subaru hsc data. *ASJ EUREKA*, 117(1):304–314, [May 2024:304–314](#)

Listing 19 selected talks out of 49 talks. See [here](#) for the full list of talks.

1. **Searching for Primordial Black Holes with Microlensing Data from Subaru HSC**, ASIAA colloquium, 2026, Apr., *Oral*
2. **Observational Search for Primordial Black Holes Using Subaru/HSC Microlensing, Elucidating the Universe's Creation with Neutrinos based on International Science Collaborations**, 2026, Mar., *Oral*
3. **Observational search of PBH, Dark matter and black holes**, 2025, Dec., *Oral* (Invited Talk)
4. **Data Compression with Noise Suppression for Inference under Noisy Covariance**, Roman F2F meeting, 2025, Nov., *Oral*
5. **Cosmology from a joint analysis of second and third order shear statistics**, KICP seminar, 2025, Oct., *Oral*
6. **Cosmology with third-order shear statistics Applications to HSC and DES, Beyond-two-point Statistics Meet Survey Systematics**, 2025, Sep., *Oral* (Invited Talk)
7. **Exploring Primordial Black Hole with Microlensing Data: Updates on Analysis Pipeline, Focus week on primordial black holes 2024**, 2024, Nov., *Oral* (Invited Talk)
8. **Exploring Primordial Black Hole with Microlensing Data, Pacific conference**, 2024, Aug., *Oral* (Invited Talk)
9. **Cosmology from Subaru HSC weak lensing Year 3 data, MIfA colloquium**, 2024, May., *Oral* (Invited Talk)
10. **Cosmology from weak lensing three-point correlation function**, astro/cosmo seminar at CMU, 2024, Feb., *Oral*
11. **Cosmology from Subaru HSC weak lensing Year 3 data, Subaru Users Meeting FY2023**, 2024, Jan., *Oral*
12. **HSC Y3 weak lensing cosmology results, CosmoPalooza**, 2023, Oct., *Oral*
13. **HSC Year 3 Weak Lensing Cosmology Results, HSC webinar**, 2023, Apr., *Oral*
14. **HSC Y3 cosmology results, CMB x LSS**, 2023, Apr., *Oral* (Invited Talk)
15. **Collaborative coding: git and github, CD3 Opening Symposium**, 2023, Apr., *Oral*
16. **Revealing the nature of dark matter with gravitational lensing: weak and microlensing, Colloquium at Osaka theoretical astrophysics group**, 2022, Jul., *Oral* (Invited Talk)
17. **Exploring Primordial black hole with microlensing observation of Andromeda galaxy, Subaru Users Meeting 2021**, 2022, Jan., *Oral*
18. **Joint analysis of galaxy-galaxy lensing and clustering at large scales from Subaru HSC and SDSS data, 2021 Autumn Annual Meeting of ASJ**, 2021, Sep., *Oral*
19. **Testing stochastic gravitational wave signals by PBH microlensing, 4th KEK-PH + KEK-Cosmo Joint Lectures and Workshop on "Gravitational Wave"**, 2020, Nov., *Oral* (Invited Talk)
